Thanks at this point, the CPG will be unable to submit the revised LRC report until the LPR sharepoint until it is restored.

Thank you.

Our SharePoint site appears to be down again, we are currently reaching out to the company that hosts the site to determine what the problem is. I will let you know when it is back on line.

Sharon:

He told me: Now it's back to giving me "Internal Server Error".

His latest try was this afternoon.

The SharePoint site did go down on Sunday out of operation on Monday due to a technical issue. It is currently up and functional. Did Jim try today to upload the document? What type of error he is receiving? Not able to access the site or is the upload failing in the mid-upload?

Rob:

Jim Herberich has been trying for a few days to get the documents loaded to EPA's Sharepoint site and we are having technical difficulties with the site.

We will continue trying and we will let you know when we can get it loaded.
